Course and Instructor Information

Course Title: Contemporary International Politics: Guns and Money

Credits: 3

Format: Online, Synchronous Monday 3:35 – 6:35pm

Prerequisites: Open to Juniors and Seniors.

Professor: Miles M. Evers

Email: miles.evers@uconn.edu

Twitter: @mevers90

Office Hours/Availability: Tuesday via Blackboard, 11 am – 3 pm

Course Materials

Readings are an essential part of this course. Students are expected to complete all assigned readings for their corresponding module. All readings will be available through electronic reserve as well as available for download through Github (<https://github.com/mevers90/POLS-3402.git>).

Students should download the Discord app on their phone and/or computer, and join the dedicated class server (<https://discord.gg/kTNVnYG>). We will use it for simulation exercises, class discussions, office hours, and general questions about the course. Discord represents the social face of the classroom, so you're encouraged to make a nickname, say hi, and communicate with me and your classmates.

Course Description

From the age of colonialism to Trump, scholars and policymakers have been interested in the relationship between guns and money, or more specifically, economics and international security. This course will cover the ways in which economic factors shape and constrain the strategies chosen to pursue national security, and the ways in which those factors affect the propensity for conflict or cooperation between states. Topics range from the causes of imperialism to the consequences of climate change for international security. Students will critique the different levels of analysis, theories, and research methods through which scholars approach these issues, and have opportunities to stake their own position.

Course Objectives

By the end of the semester, students should be able to:

1. Understand and critique the major debates in the literature
2. Propose new questions and answers within existing debates
3. Apply concepts to current topics in foreign policy

Course Requirements and Grading

Summary of Course Grading:

Course Components	Weight
Participation	20%
Discussion Leaders	20%
Critical Analysis Papers	40%
Policy Presentation	20%

Participation (20%): This seminar is discussion oriented. Your preparation, participation, and cooperation as a group is essential for this format to work. You are expected to read the readings the week they are assigned and to come to class prepared to ask questions and actively participate in discussion. 10% consists of regular attendance and the other 10% consists of active discussion. Students who are shy to discuss topics in class can make up for this by privately discussing topics with me in my office hours.

Discussion Teams (10% x 2 = 20%): Each student in the class must sign up for two classes for which they will be one of two discussion leaders. Discussions leaders will begin the class with a brief presentation (10-15 min) that overviews the key argument, evidence, and takeaways from the readings as well as offer some commentary and/or reactions. Discussion leaders should collectively offer 3 - 5 questions for class discussion. These questions should be submitted to the [#discussion-questions](#) Discord channel before class.

Critical Analysis Paper (2 x 20% = 40%): Each student will write two critical papers (5-10 pages) throughout the semester. For each paper, you will choose a session from the course and evaluate the readings assigned. Only one of these papers can be on the week that a student is presenting and must be from different parts of the class (i.e. you cannot pick two sessions from Part 1).

The goal of these papers is to make an original argument about the readings. A successful paper will identify the main question (e.g. “does interdependence promote peace”) that unites these readings, organize the readings into different camps (e.g. “one group of scholars says trade promotes war whereas another group says it discourages war.”), explain what you do or not find compelling (i.e. “these scholars overlook a critical variable” or “a concept is poorly defined”), and detail why that matters (e.g. “this leads to new questions about...”). The last two components should account for the majority of the paper. For tips on how to write a critical analysis paper, see <https://depts.washington.edu/pswrite/Handouts/CriticalAnalysisPapers.pdf>.

The first paper should be submitted on the [#home-work-submission](#) Discord channel no later than midnight Oct. 30th, and the second paper should be submitted no later than midnight Dec. 11th. However, I recommend completing this sooner to save time to prepare for the final presentation.

Policy Presentation (20%): At the end of the semester, students will give a presentation on a major foreign policy priority of the current (or future) US administration that lies at the intersection between economics and international security. The presentations will need to cover the main parameters of the issue, how the administration is tackling it, which policy instruments are being employed, and how it cover how past administrations have used policy instruments tools to achieve the foreign policy priority. These presentations will conclude clear recommendations on which how the administration should tackle the issue in the future. Students should draw class readings in their assessments.

Each presentation should be roughly 10-15 minutes, and will be followed by 10 minutes of Q&A after their presentation. They should be well-polished, and be accompanied by slides, such as Powerpoint, Canva, or Keynote. Slides should be submitted on the [#presentation-submission](#) Discord channel before class. Students not presenting on that day should be prepared to ask questions and actively participate after each presentation. Active participation will account for 5% of your presentation grade.

Students should discuss their idea with me no later than Nov. 9th, at which point we will begin to assign presentation times.

Grading Scale (per the Registrar):

Grade	Letter Grade	Percent
Excellent	A	94 - 100
	A-	90 - 93
Very Good	B+	87 - 89
Good	B	84 - 86
	B-	80 - 83
	C+	77 - 79
Average	C	74 - 76
Fair	C-	70 - 73
Poor	D+	67-69
	D	64 - 66
Merely Passing	D-	60 - 63
Failure	F	0 - 65

Due Dates and Late Policy

All course due dates are identified in the course calendar and blackboard. Deadlines are based on Eastern Time; if you are in a different time zone, please adjust your submittal times accordingly. *I reserve the right to change dates accordingly as the semester progresses. All changes will be communicated in an appropriate manner.*

Late assignments will incur a full letter grade deduction for each day over the due late.

Exams

In accordance with UConn policy, students are required to be available for their midterm and final exams and/or complete any assessment during the time stated. If you have a conflict with this time you must obtain official permission to schedule a make-up exam with the Dean of Students. If permission is granted, the Dean of Students will notify the instructor. Please note that vacations, previously purchased tickets or reservations, graduations, social events, misreading the assessment schedule, and oversleeping are not viable reasons for rescheduling the midterm or final.

Feedback and Grades

I will make every effort to provide feedback and grades in a timely manner. The best option for discussing course material and assignments is to email me (miles.evers@uconn.edu) or post a question on the relevant channel of the Discord class server. This allows you to see whether students have asked a similar question or respond to

their questions. Please check this channel before sending a question. Please keep in mind that I will not respond to email after 5 PM or at anytime on the weekends. Additionally, I will not respond to emails received the day before an assignment is due. In general, I will do my best to respond to all student questions within 24 hours, and return course assignment within a week.

To keep track of your performance in the course, refer to My Grades in HuskyCT.

Weekly Time Commitment

You should expect to dedicate 3 to 5 hours a week to this course. This expectation is based on the various course activities, assignments, and assessments and the University of Connecticut's policy regarding credit hours. More information related to hours per week per credit can be accessed at the [Online Student website](#).

Student Authentication and Verification

The University of Connecticut is required to verify the identity of students who participate in online courses and to establish that students who register in an online course are the same students who participate in, complete the course activities and assessments, and receive academic credit. Verification and authentication of student identity in this course will include:

1. Secure access to the learning management system using your unique UConn NetID and password.
2. Students may be required to verify their identity through Online proctoring, Video Conference with ID check, etc.

Student Responsibilities and Resources

As a member of the University of Connecticut student community, you are held to certain standards and academic policies. In addition, there are numerous resources available to help you succeed in your academic work. Review these important [standards, policies and resources](#), which include:

- The Student Code
 - Academic Integrity
 - Resources on Avoiding Cheating and Plagiarism
- Copyrighted Materials
- Credit Hours and Workload
- Netiquette and Communication
- Adding or Dropping a Course
- Academic Calendar
- Policy Against Discrimination, Harassment and Inappropriate Romantic Relationships
- Sexual Assault Reporting Policy

Students with Disabilities

The University of Connecticut is committed to protecting the rights of individuals with disabilities and assuring that the learning environment is accessible. If you anticipate or experience physical or academic barriers based on disability or pregnancy, please let me know immediately so that we can discuss options. Students who require accommodations should contact the Center for Students with Disabilities, Wilbur Cross Building Room 204, (860) 486-2020 or <http://csd.uconn.edu/>.

Blackboard measures and evaluates accessibility using two sets of standards: the WCAG 2.0 standards issued by the World Wide Web Consortium (W3C) and Section 508 of the Rehabilitation Act issued in the United States federal government." (Retrieved March 24, 2013 from [Blackboard's website](#))

Software/Technical Requirements (with Accessibility and Privacy Information)

The software/technical requirements for this course include:

- HuskyCT/Blackboard ([HuskyCT/ Blackboard Accessibility Statement](#), [HuskyCT/ Blackboard Privacy Policy](#))
- [Adobe Acrobat Reader](#) ([Adobe Reader Accessibility Statement](#), [Adobe Reader Privacy Policy](#))
- Microsoft Office (free to UConn students through uconn.onthehub.com) ([Microsoft Accessibility Statement](#), [Microsoft Privacy Statement](#))
- Dedicated access to high-speed internet with a minimum speed of 1.5 Mbps (4 Mbps or higher is

recommended).

- WebCam
- WebEx
- Discord

For information on managing your privacy at the University of Connecticut, visit the [University's Privacy page](#).

Help

[Technical and Academic Help](#) provides a guide to technical and academic assistance. This course is completely facilitated online using the learning management platform, [HuskyCT](#). If you have difficulty accessing HuskyCT, you have access to the in person/live person support options available during regular business hours through the [Help Center](#). You also have [24x7 Course Support](#) including access to live chat, phone, and support documents.

Minimum Technical Skills

To be successful in this course, you will need the following technical skills:

- Use electronic mail with attachments.
- Save files in commonly used word processing program formats.
- Copy and paste text, graphics or hyperlinks.
- Work within two or more browser windows simultaneously.
- Open and access PDF files.
- Turn on/off web cam and microphone
- Video conferencing
- Upload documents to website

University students are expected to demonstrate competency in Computer Technology. Explore the [Computer Technology Competencies](#) page for more information.

Evaluation of the Course

Students will be provided an opportunity to evaluate instruction in this course using the University's standard procedures, which are administered by the [Office of Institutional Research and Effectiveness](#) (OIRE).

Additional informal formative surveys may also be administered within the course as an optional evaluation tool.
